

# Assignment Week 1 – Features and Benefits

Name: Shrita Gaonkar

Student ID: 100799307

Sr. No.	Features	Benefits
1.	Experience in Data Science	Skilled in Data Science and Analytics, I add an analytical solution to a problem by looking at numbers, data, and statistics.
2.	Donkey, not a horse	There is no shortcut to success. While a smart worker gets the job done, he might skip some crucial details. On the other hand, a hard worker is fully committed to the job.
3.	Creative	Creativity is important so you can, have innovative ways to grow your business and have more than one answer to the question.
4.	Communication skills	Having a healthier work environment requires employees to know and understand each other. To establish this, employees must have good communication skills.
5.	Life-long learner	I am the perfect candidate for this job role as my qualifications match with the company's requirements. But the company might need me for a different task in the future which is why I keep myself updated with the latest technology.
